

TWO APPOINTMENTS.

Governor Murphy yesterday sent the name of R. L. Long to the council as territorial superintendent of public instruction, and that of Dr. E. N. Moller of Yuma as territorial prison physician. The latter nomination was made on the recommendation of Councilman Carpenter and Assemblyman Doan of Yuma county.

The nomination of Mr. Long was made on account of his extended acquaintance with the educational affairs of the territory. It is not generally known, but it is a fact, that Mr. Long is the author of the present school law of the territory. He drafted a bill which was passed by the Thirteenth legislature. Though it has since been slightly amended it has never been essentially changed.

Mr. Long held the office of superintendent of public instruction in 1884 and 1885. At that time the office was elective or was construed to be, though it was afterward admitted that the appointment of the superintendent was one of the prerogatives of the governor. In 1888 and 1889-90 he was principal of the territorial Normal school, which position he resigned in the last named year to accept the principalship of the Phoenix schools.

His connection with the educational affairs of the territory covered a period fifteen years. Since 1891 he has been engaged in the abstract business in Phoenix and had held the office of clerk for Arizona of the court of private land claims since the organization of that court.—Republican.
